

IT SECURITY **SERVICES** CATALOG

ABOUT US

ComCERT is a Polish company, part of the Asseco Group.

Since 2011, we have been providing cybersecurity services, focusing on the following areas:

- Implementation of cybersecurity systems.
- Security audits and regulatory compliance.
- Threat and incident identification in cyberspace.
- Development and training of SOC, CSIRT/CERT teams.
- Support in threat or security breach situations.

Our services offer direct support to IT security teams, SOC centers, and CSIRT/CERT teams. With extensive experience in providing cybersecurity services, practical knowledge of domestic and international threat specifics, and long-standing cooperation with numerous enterprises, our team ensures the highest quality of services.

We offer comprehensive training, products, and services in cybersecurity, presenting a complete solution meeting the needs of cybersecurity teams of large and medium entities.

Our clients include banks, critical infrastructure entities, key service operators, public administration bodies, State Treasury companies, and digital service providers.

SCOPE OF SPECIALIZATION

We support our clients at every stage of their operations and security.

We provide comprehensive support and execution of processes for preparation, planning, verification, implementation, monitoring, and maintenance of cybersecurity systems.

Beyond our core service activities, we conduct educational programs and training in specialized competencies. Our training offerings are complemented by simulations to verify operational effectiveness and the level of awareness and knowledge.

CYBERSECURITY SERVICES

The scope of basic services highlights the most popular tasks that we have been carrying out for our clients for the past 12 years. The area of expertise of our staff covers a wide spectrum of knowledge and practical skills.

We support our clients in prevention, recognition, and counteracting threats in cyberspace. In addition to service activities focused on cybersecurity, we also conduct educational and training activities, along with practical workshops and simulations.

- | | |
|--------------------------------|-------------------------------|
| ✓ SECURITY AUDITS | ✓ POST-BREACH ANALYSIS |
| ✓ DIGITAL FORENSICS | ✓ REGULATORY COMPLIANCE |
| ✓ SOC OUTSOURCING (1L, 2L, 3L) | ✓ CISOaaS (CISO as a SERVICE) |
| ✓ SIEM, SOAR SETUP SUPPORT | ✓ DEVELOPING SOC, CSIRT UNITS |
